

Drawings: Selections from the Permanent Collection

Bringing together visitor favorites alongside more recent acquisitions,

Drawings: Selections from the Permanent Collection, highlights

contemporary works on paper from the permanent collection of the

Nevada Museum of Art. Each work in this small exhibition

demonstrates exacting precision and a commitment to the

fundamentals of drawing. Utilizing elements of design—including

shape, color, form, space, line, value, and texture—these artists have

made drawing a vital component of their practice.
