

# Lesson 2:

## Water Stories: Mapping, Memory and Stewardship

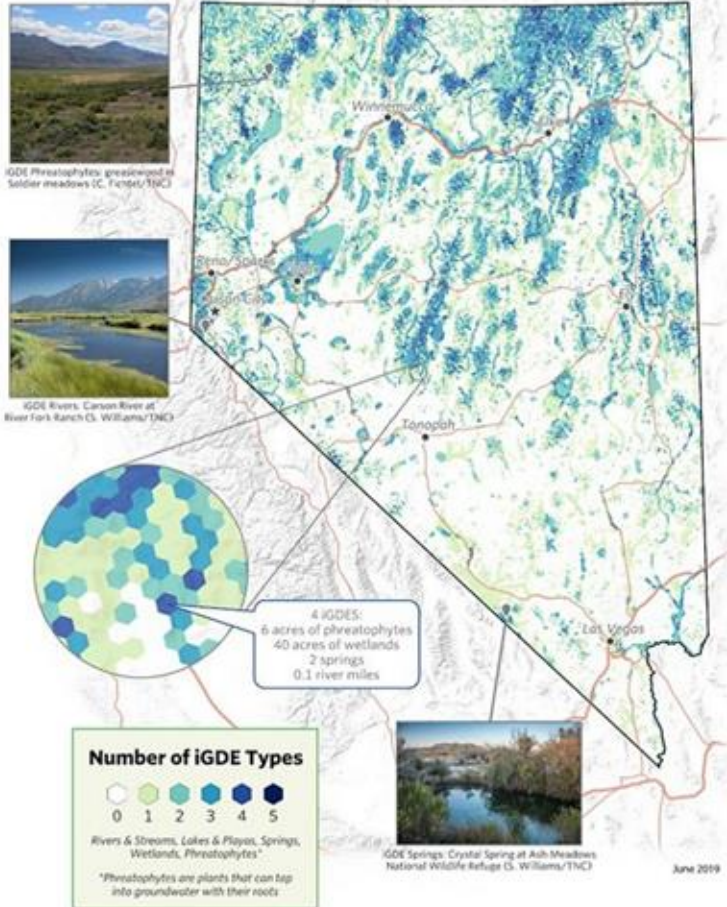

- What is this map showing us?
- What can maps show us?

**Nevada Lakes,  
Rivers  
and Water  
Resources**

## Indicators of Groundwater Dependent Ecosystems in Nevada

- Where do you see the most water?  
The north or the south?
- Where do you live?
- Where do desert cities get their water?
- Where do you get your water?

- Cedar Spring is located in far eastern Nevada.
- Who makes maps?
- How are we able to read maps?
